

OVERALL SCORE

82/100

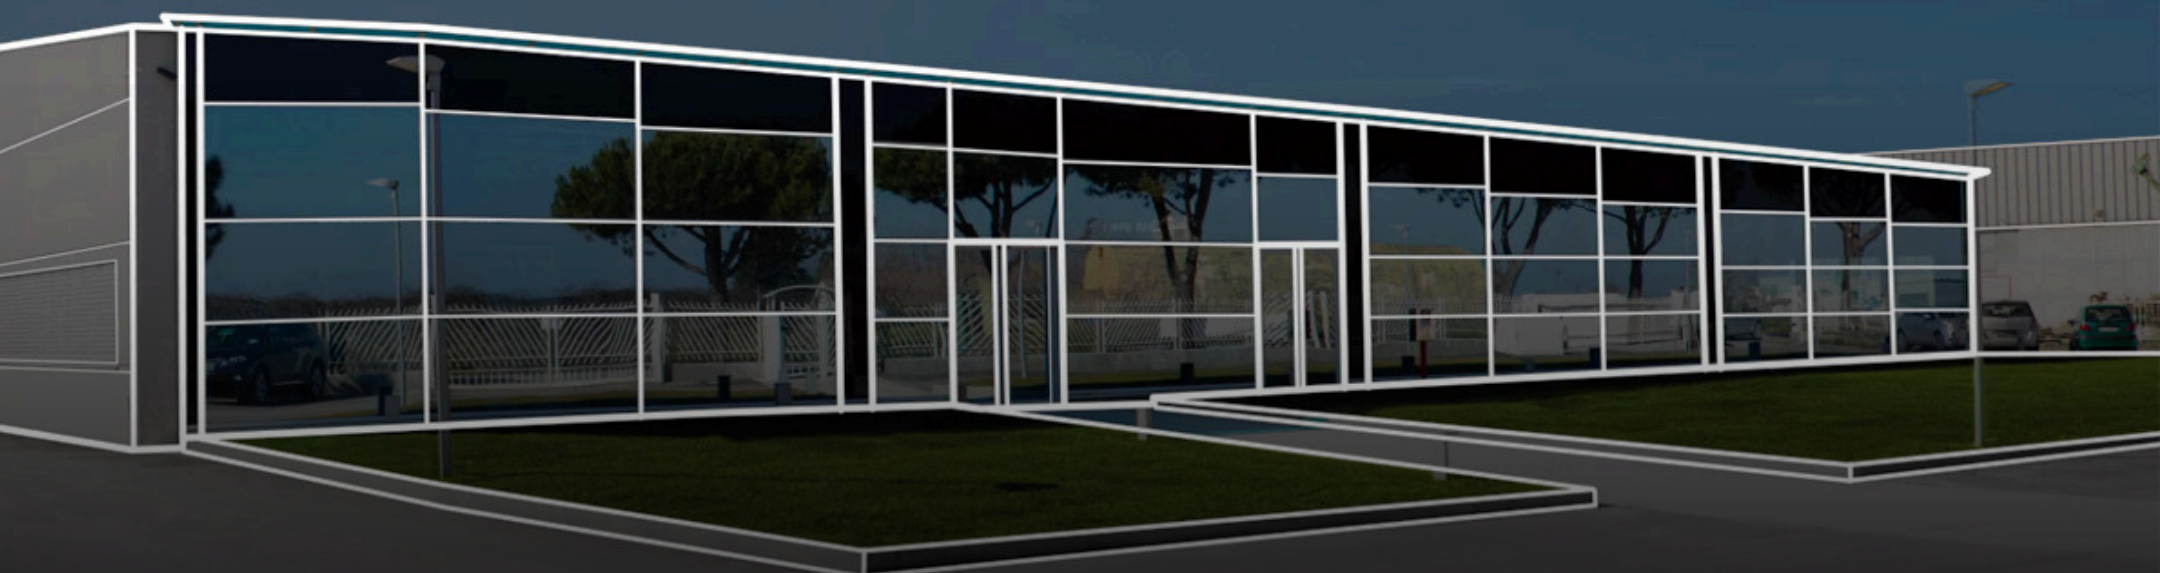

Fontemaggi has achieved the EcoVadis Gold certification, an international recognition that places us among the most virtuous companies worldwide in the field of sustainability.

A result of great value, achieved by only 5% of the companies assessed globally, which demonstrates our concrete and ongoing commitment to a responsible development model.

This Gold Medal adds to the ISO certifications already obtained, strengthening Fontemaggi's path toward integrating sustainability, innovation, and quality into every stage of our work.

For us, this is not just a milestone but a shared vision: to collaborate with clients and partners who share our same values and our attention to people and the environment.

More information is available on the EcoVadis portal.
A daily commitment for people, for our clients, for the planet.
